Name: S B Sabesh
Reg No: 192472153

Course Code: ITA0330
Course Name: Mobile Computing

4 Experiment Name: Mobile Network Protocol Stack Visualization Using Figma

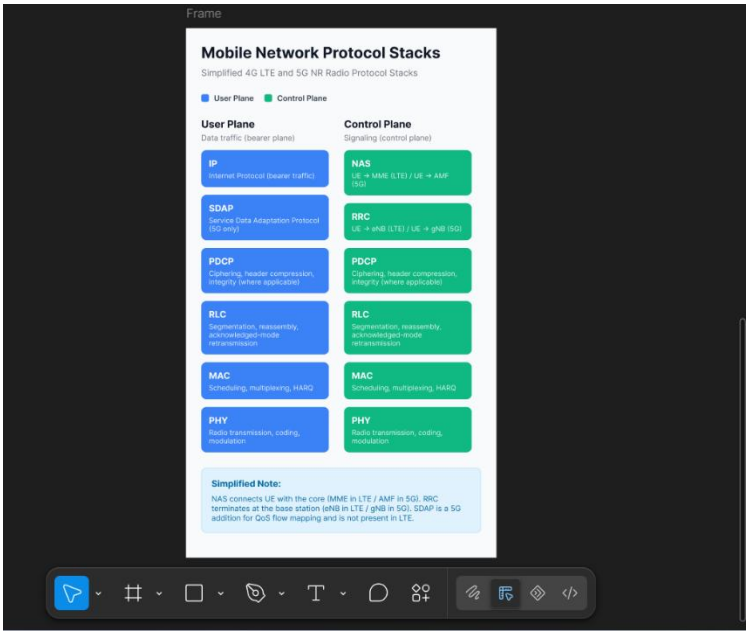

Aim:

To create a visual representation in Figma highlighting the key layers and functions of mobile network protocol stacks.

Procedure

1. Open Figma and create a new FigJam board.
2. Draw five rectangles and arrange them vertically.
3. Label the rectangles as Application Layer, Transport Layer, Network Layer, Data Link Layer, and Physical Layer.
4. Add the main functions of each layer below its name.
5. Use different colors to distinguish the layers.
6. Connect the rectangles using arrows to show the communication flow.
7. Align the shapes neatly and save the design.

Output:

Result:

A visual representation of mobile network protocol stacks was created in Figma, showing the five layers and their main functions in mobile communication.
